Honorable Mayor and City Council
City of Warrensburg
Warrensburg, Missouri

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the discretely presented component unit of the City of Warrensburg, Missouri, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the discretely presented component unit as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (MD&A), budgetary comparison information, the Schedule of Changes in Net Pension Asset and Related Ratios, and the Schedule of Contributions and related notes be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Warrensburg, Missouri's basic financial statements. The Combining Statement of Fiduciary Net Position and the Combining Statement of Changes in Fiduciary Net Position are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Statement of Fiduciary Net Position and the Combining Statement of Changes in Fiduciary Net Position are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Statement of Fiduciary Net Position and the Combining Statement of Changes in Fiduciary Net Position are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2022, on our consideration of the City of Warrensburg, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Warrensburg, Missouri's internal control over financial reporting and compliance.

Management's Discussion and Analysis

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

The management's discussion and analysis of the City of Warrensburg's financial performance provides an overview of the City's financial activities for the fiscal year ended September 30, 2021. Please read it in conjunction with the City's financial statements, which begin on page 18.

Financial Highlights

- The Net Position of the City's governmental activities increased by \$3,531,160 for the year as a result of current year activities. The net position of the City's business activities increased \$968,808 for the year.
- The assets and deferred outflow of resources of the City exceeded its liabilities and deferred inflow of resources as of September 30, 2021, by \$67.2 million (net position). Of this amount, \$10.4 million was unrestricted and may be used to meet future obligations of the City.
- Total long-term liabilities of the City decreased by \$1,359,981.

Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds.

Government-Wide Financial Statements

One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the City's net position and changes in them. The City's net position – the difference between assets and liabilities – are one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

Governmental Activities: Most of the City's basic services are reported here. Taxes are the primary source of financing for these activities.

Business-Type Activities: The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's sewer services are provided here.

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds rather than the City as a whole. Some funds are required to be established by state law and by bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes and grants.

Governmental Funds: Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and the governmental funds are shown in a reconciliation following the fund financial statements.

Proprietary Funds: When the City charges customers for the services it provides – whether to outside customers or to other units of the City – these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

Governmental Activities

Governmental activities increased the net position of the City by \$3,531,160. Total tax revenues for the City were \$15.1 million, which represents 84% of the financing of these activities. Program revenues for the functions totaled \$1.8 million or 10% of the funding. The following table shows the cost of the City's programs as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the taxpayers by each of these functions.

Net Cost of the City of Warrensburg's Governmental Activities

	Total Cost of Services	Net Cost of Services
General government	\$ 1,194,134	\$ 451,325
Finance	94,015	94,015

Debt Service	498,163	498,163
	<u>\$ 14,473,491</u>	<u>\$ 12,660,371</u>

Business-Type Activities

Business-type activities increased the City's net position by \$968,808. Last year the business-type activities increased \$57,336.

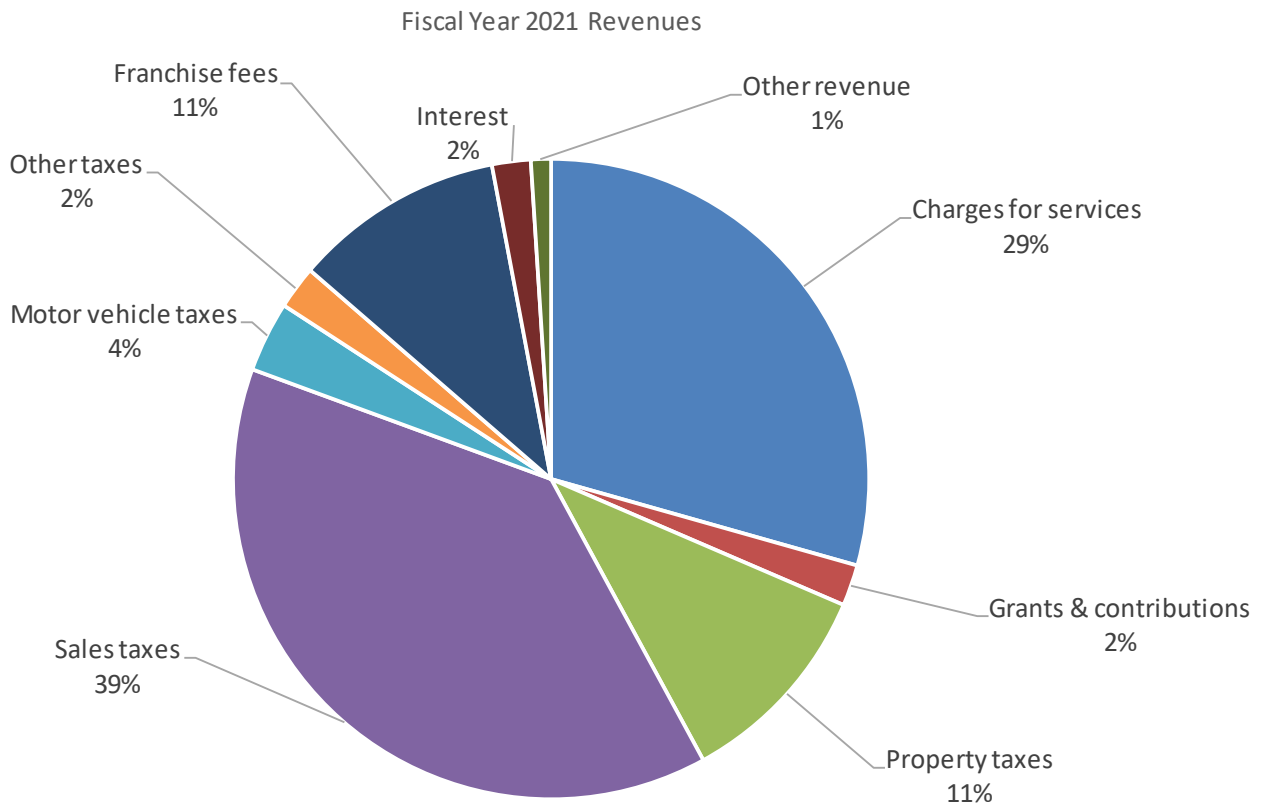

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

Financial Analysis of the City's Funds

The pie chart below illustrates the City of Warrensburg's revenue sources as percentages for the fiscal year 2021. The City saw an increase in revenues from fiscal year 2020 to fiscal year 2021, with the most important difference being charges for services. Charges for services increased \$715,799 from \$5,706,293 in fiscal year 2020 to \$6,422,092 in fiscal year 2021. Sales tax also saw an increase of \$575,008. Proportions of revenue collections remained consistent when compared to 2020.

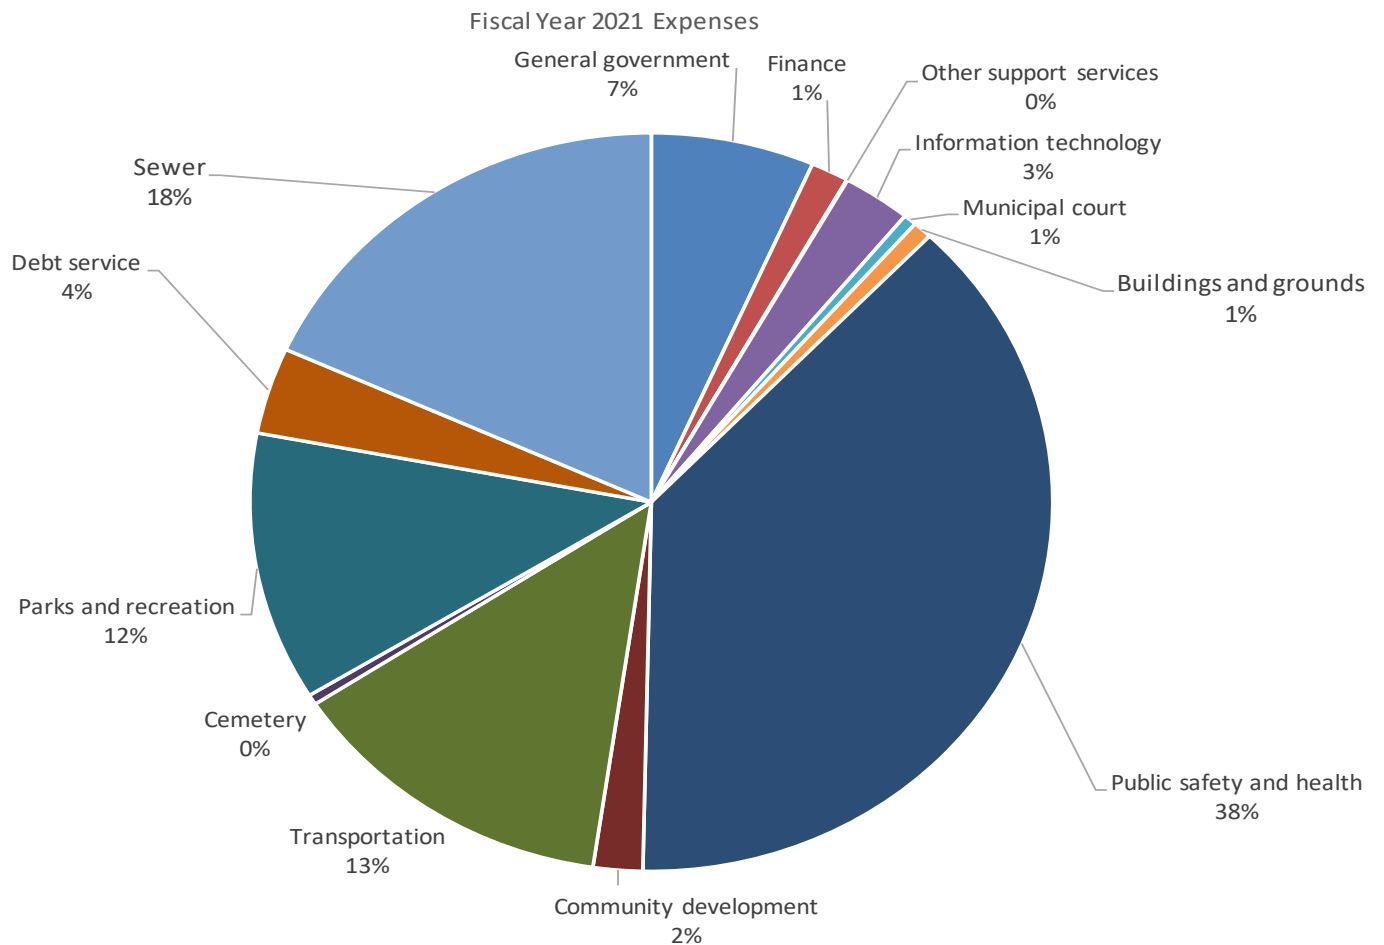

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

The City of Warrensburg saw an overall decrease in expenses in fiscal year 2021. Most of the divisions saw decreases in operating expenses. Decreases in Building and Grounds, Community Development, Information Technology and Parks and Recreation provided for the overall decrease in expense compared to 2020.

Implementation of the findings of the recent Wage & Benefit Study brought employee wages to the 50th percentile (the average) of comparable communities. This represents the increase in most of the division's operating costs and will continue to impact the City's budget for FY22 and future budgets. Departments have done a great job this year making this matter a priority and balancing their budgets.

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

The combined fund balances of the City's governmental funds as of September 30, 2021, were \$17.1 million. The General Fund increased by \$951,179. The Park Fund increased by \$405,078. The Tri-Centennial Fund increased by \$115. The Capital Improvement Transportation Fund increased by \$538,146. The Capital Improvement Half-Cent Fund increased by \$561,369. The American Rescue Plan Act Fund increased by \$1,632. The Debt Service Fund remained the same. The Neighborhood Improvement Fund increased by \$8. The Tax Increment Financing Fund increased by \$31. The Capital Improvement Bond Fund increased by \$5,160,051. The Vehicle Fund decreased by \$2,020.

The following bar graph provides a view of the City of Warrensburg's ending General Fund balances, and displays the recent historical performance of the General Fund.

Fiscal Year General Fund Balances

General Fund Budgetary Highlights

Differences between the original and the final amended budget can be summarized as follows:

- The original revenues and other sources budget of \$9,841,630 was amended to \$10,358,612 during the year.
- The total original budgeted expenditures and other uses of \$10,448,750 were increased by \$124,000 to \$10,572,750. Most of this increase was from an increase in general admin.

Capital Asset and Debt Administration

Capital Assets

Capital assets of the governmental activities were \$46 million (net of accumulated depreciation) as of September 30, 2021. This represents a decrease of \$2.2 million from the prior year due to current year provisions for depreciation. Net capital assets for business-type activities were \$22.9 million as of September 30, 2021. This represents a decrease of \$900,000 from the prior year due primarily to the current year disposal of capital assets and improvements and current year provisions for depreciation.

City of Warrensburg

Management's Discussion and Analysis

September 30, 2021

Debt

Total debt and long-term obligations of the governmental activities as of September 30, 2021, was \$19.3 million, which is an increase of \$2.6 million. During the year, the City issued \$5,000,000 in Series 2021 General Obligation Bonds.

Total debt and long-term obligations of the business-type activities as of September 30, 2021, was \$9.8 million, which is down by \$1.3 million from the prior year due to the payments made on the City's Certificates of Participation and revenue bonds.

Economic Factors and Next Year's Budget

The City continues to experience stability in overall General Fund revenues, which is a positive. Overall revenue has plateaued, and staff does not anticipate any significant increase in the upcoming fiscal year. Sales tax projections are increased based on the historic collection over the past two years as COVID-19 continues. Some revenue streams have declined, with the most significant one being franchise fees. Given the significant dependence of the City on sales tax revenues it is imperative that a constant focus is applied to sustaining growth in this revenue stream. Efforts such as the "Love What's Local" campaign become increasingly important. The real driver, however, will be to increase population and discretionary income levels within the city limits and local region.

Ideally the City would diversify its revenues streams to decrease dependency upon sales tax, particularly stronger property tax revenues. However, the Missouri legislature's enactment of the Hancock Amendment has made doing so more difficult. Council placed significant infrastructure and capital purchase on the ballot for citizens to vote property tax increases to pay for these community needs with success. Examples of projects and capital purchases include the Maguire Street Corridor, storm water infrastructure, Public Safety apparatus and technology.

In fiscal year 2017, the City joined the Missouri Securities Investment Program (MOSIP). At the time this allowed the City to earn interest above what was currently offered by the City's banking institution, while maintaining compliance with state approved investments for municipalities. Currently, the City's banking institution provides a better earnings rate.

Sewer rate increases beginning in 2017 had the desired effect on generating revenues needed to stabilize the financial viability of the Sewer Utility. Additional increases are needed to provide the appropriate revenues to fund Sewer Capital Projects and maintain financial solvency. Future Sewer rate studies are projected to provide current data analysis to maintain financial needs for the Sewer Utility.

Recent years included extensive capital purchases and projects undertaken by the City, there was a shift in focus for fiscal year 2021. Successful passage of General Obligation Bond issuance allows 2022 and future years to include much needed street and infrastructure improvements. Additionally, the pandemic has and continues to change the way business is conducted. The demolition of a dilapidated Street Department storage building on West Culton street was completed, leaving a prime lot in the downtown portion of the City. The receipt of the American Rescue Plan Act distribution allows the City to develop plans to expend these dollars including upgrading the public safety radio systems.

The City continues plans to complete extensive upgrades to its wastewater plants, and some of that work will began in fiscal year 2020 and continued in 2021. To address the reliability of phone and internet networks, which are a necessary tool for the operation of the plant, the City will have fiber installed to the facilities. There will also be new SCADA components installed along with the replacement of Ultraviolet components and Sequencing Batch Reactor blowers that aid in the treatment of the City's wastewater.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

September 30, 2021

Fund balance - total governmental funds	\$ 17,125,234
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:	
Governmental capital assets	97,224,793
Less accumulated depreciation	<u>(51,226,113)</u>
	45,998,680
The net pension asset is not available to pay for the current-period expenditures, and therefore, is not reported in the funds. The following is the detail of the net effect of these differences in the treatment of the net pension asset and related deferred items:	
Net pension asset	8,988,653
Deferred outflows due to pension	726,547
Deferred inflows due to pension	<u>(4,974,306)</u>
	4,740,894
Internal Service Funds are used by management to charge the costs of insurance to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the Statement of Net Position	659,231
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due	(69,430)
Deferred inflows - special assessments	383,555
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds	<u>(19,287,379)</u>
Net position of governmental activities	<u>\$ 49,550,785</u>

See accompanying notes to the financial statements.

City of Warrensburg

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended September 30, 2021

Net change in fund balances - total governmental funds	\$ 7,615,589
<p>Amounts reported for governmental activities in the Statement of Activities are different because:</p>	
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of these assets is allocated over their estimated useful lives on a straight line basis and reported as depreciation expense. The following is the detail of the amount by which depreciation was exceeded by capital outlays for the year.</p>	
Capital outlay	2,591,001
Depreciation	(2,417,416)
Disposal of capital assets, net	(2,367,418)
	(2,193,833)
Some revenues reported in the governmental funds represent current financial resources and were recognized in the Statement of Activities when earned	(66,997)
<p>The issuance of long-term debt provides current financial resources to governmental funds. The repayment of the principal of long-term debt is a use of current financial resources of governmental funds. Also, governmental funds report the effect of issuance costs and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. In the Statement of Activities, interest is accrued on outstanding debt whereas in the governmental funds, an interest expenditure is reported when due. The following is the detail of the net effect of these differences.</p>	
Repayment of principal on bonds, leases, and other debt	2,549,537
Bond proceeds	(5,248,673)
Bond premiums and discounts	64,426
	(2,634,710)
Internal service funds are used by management to charge the costs of various activities internally to individual funds. The net expense of certain activities of the Internal Service Fund is reported with governmental activities.	(128,550)
Some expenditures reported in the governmental fund represent the use of current financial resources and were recognized in the Statement of Activities when incurred	939,661
Change in net position of governmental activities	\$ 3,531,160

See accompanying notes to the financial statements.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

1. Summary of Significant Accounting Policies

The City of Warrensburg, Missouri, (the City) is located in Johnson County and was incorporated in 1865, under the provisions of the State of Missouri. Warrensburg is a city of the third class and operates under a City Council-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, culture-recreation, public improvements, planning, and general administrative services. Other services include sewer operations.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies.

Financial Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. Financially accountable means the primary government is accountable for the component unit and the primary government is able to impose its will or the component unit may provide financial benefits or impose a financial burden on the primary government. In addition, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The City is a primary government, which is governed by an elected board. As required by accounting principles generally accepted in the United States of America, the City has evaluated the above criteria to determine whether any other entity meets the definition of a component unit and must be included in these financial statements. The City has determined that the entity described in the following paragraph meets the above criteria and therefore, has been included as a component unit in the City's basic financial statements.

Component Unit

The Warrensburg Convention and Visitors Bureau of the City of Warrensburg is a not-for-profit corporation organized for the purpose of promoting tourism in Warrensburg. The Bureau is governed by a nine-member board appointed by the City. This entity is discretely presented on the government wide financial statements of the City.

Government-Wide and Fund Financial Statements

The basic financial statements include both the government-wide (the Statement of Net Position and the Statement of Activities) and fund financial statements.

Government-Wide Financial Statements

The government-wide statements display information about the government as a whole. Interfund activity has been eliminated from these statements to minimize the duplication of internal activities. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for services for support.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

In the government-wide Statement of Net Position, both the governmental and business-type activities are consolidated and presented on the full accrual, economic resources basis of accounting. The consolidated presentation incorporates long-term assets and receivables as well as long-term debt and obligations, and it provides information to improve analysis and comparability.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function of the City's governmental and business-type activities. Direct expenses are those that are specifically associated with a program or a function. Program revenues include charges for goods or services offered by the programs and grants and contributions that are restricted to meet operating and capital expenses of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

Separate fund financial statements report information on the City's governmental and proprietary funds. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Consequently, the emphasis on near-term inflows and outflows of resources do not present the long-term impact of transactions. Conversely, the proprietary fund statements incorporate the accrual basis of accounting and focus on the change in total economic resources. This presentation records long-term assets and liabilities, and recognizes revenues and expenses when transactions occur, regardless of their impact on the flow of cash. Since the accounting differs significantly between the governmental funds and the proprietary funds, it is necessary to convert the governmental fund data to arrive at the government-wide financial statements. Therefore, reconciliations have been provided following the Governmental Funds Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balance identifying categories that required conversion from the fund statements.

The City reports the following major governmental funds:

General Fund: The General Fund is the general operating fund of the City. It is used to account for all financial resources not accounted for in other funds.

Park Fund: The Park Fund of the City is used to account for resources restricted, committed, or assigned for the parks department within the City.

Tri-Centennial Fund: The Tri-Centennial Fund is used to account for miscellaneous revenues and expenditures that are restricted, committed, or assigned for the Tri-Centennial activities.

Capital Improvement Transportation Fund: The Capital Improvement Transportation Fund is used to account for sales taxes and other resources that are restricted, committed, or assigned for the transportation capital improvements within the City.

Capital Improvement Half-Cent Fund: The Capital Improvement Half-Cent Fund is used to account for sales taxes and other resources that are restricted, committed, or assigned for the capital improvements within the City.

Neighborhood Improvement Fund: The Neighborhood Improvement Fund is used to account for proceeds that are restricted, committed, or assigned from the payment of Neighborhood Improvement Bonds.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

Debt Service Fund: The Debt Service Fund is used to account for funds that are restricted, committed, or assigned from the payment of the City's governmental activities debt.

Tax Increment Financing Fund: This fund is used to account for collection and disbursement of economic activity taxes and property taxes collected on growth of assessed valuation of the redevelopment area of the TIF District.

Capital Improvement Bond Fund: This fund is used to account for collection and disbursement of proceeds of the Series 2017 General Obligation bonds.

Vehicle Fund: This fund is used to account for the acquisition and disposal of vehicles throughout various City departments.

American Rescue Plan Act Fund: This fund is used to account for the collection and disbursement of funds received from the American Rescue Plan Act (ARPA).

The City reports the following major proprietary funds:

Sewer Fund: The Sewer Fund accounts for the activities and capital improvements of the City's sewer system.

Internal Service Fund: The Internal Service Fund accounts for the premiums received and claims paid under the City's hybrid cost-plus employee health insurance plan.

The City reports the following major fiduciary funds:

Fiduciary Funds: Fiduciary funds are used to report assets held in a trustee or custodial capacity for others. Since by definition these assets are being held for the benefit of a third party and cannot be used to support activities or obligations for the City, these funds are not incorporated into the government-wide statements. The City is the fiduciary for four private purpose trust funds and three custodial funds. The custodial funds consist of the Children's Memorial Trust, the Arts Commission Fund, and the Public Arts Fund. The Children's Memorial Trust fund exists to account for funds donated to build a memorial to honor the memory of children who have died. The Arts Commission fund is used to account for funds donated to further the arts within the City. The Public Arts Fund is used to fund art in public places.

Capital Assets

Capital assets include land, buildings, improvements, equipment, and infrastructure assets (e.g., roads, bridges, storm sewers, and similar items) and are included in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, excluding land, are defined by the City as assets with a cost of \$5,000 or greater and an estimated useful life of at least one year. All land purchases are capitalized regardless of cost. All purchased fixed assets are valued at cost when historical records are available and at an estimated historical cost when no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

In conformity with GASB 34, infrastructure, such as streets and storm sewers, completed in the current year has been capitalized. Additionally, the city elected to depreciate its infrastructure assets. Depreciation is provided in amounts sufficient to relate the cost of the depreciable assets to operations over their estimated service lives on the straight-line basis. The service lives by type of asset are as follows:

Machinery and equipment	3 to 20 years
Cemetery buildings	5 to 20 years
Other buildings	15 to 50 years
Improvements	15 to 50 years
Sewer lines	20 to 70 years
Other infrastructure	20 to 50 years

Expenditures for maintenance and repairs are charged to expense; renewals and betterments are capitalized.

Pooled Cash and Cash Equivalents

The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash account is available to meet current operating requirements.

Fair Value

The fair value measurement and disclosure framework provides for a fair value hierarchy that gives highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no significant changes from the prior year in the methodologies used to measure fair value. The levels of the fair value hierarchy are described below:

Level 1: Inputs using quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs using significant other observable inputs including quoted prices for similar assets or liabilities.

Level 3: Inputs are significant unobservable inputs.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out method. Inventory usage is recognized on the consumption method.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

Compensated Absences

Under terms of the City's municipal code, City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is paid for accumulated vacation days up to the equivalent of one year's vacation (maximum of four weeks). The amount that can be accrued for sick leave is limited to 1080 hours for firefighters and 720 hours for all other employees. Employees are paid for one-half of the amount of accumulated sick leave only upon retirement from the City.

Vested or accumulated vacation leave and compensatory time is accounted for as follows:

Governmental Funds: The accumulated liabilities for vacation and compensatory time is recorded in the governmental activities column of the government-wide financial statements.

Proprietary Funds: The costs of vacation and compensatory time are accrued in the respective funds as earned by City employees and recorded in the proprietary fund financial statements and the business-type activities column of the government-wide financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition - Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are due and payable at that time. All unpaid taxes levied November 1 become delinquent after December 31 of that year.

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds generally result from providing services and producing and delivering goods and/or services in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund is charges to customers for services. All other revenues and expenses are considered nonoperating.

Deposits and Investments

For financial statement purposes and the statement of cash flows, the City considers all accounts subject to withdrawal by check or on demand to be cash equivalents. All other deposits and Certificates of Deposit are considered to be investments.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

Net Position

In the government-wide and proprietary fund financial statements, equity is displayed in three components as follows:

Net Investment in Capital Assets: This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted: This consists of net position that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation.

Unrestricted: This consists of net position that does not meet the definition of restricted or net investment in capital assets.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the City first applies restricted net position.

Fund Balance Classification

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on constraints imposed on the use of these resources as follows:

Nonspendable fund balance: This classification includes amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact.

Restricted fund balance: This classification reflects the constraints imposed on resources either a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance: These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the City Council – the government’s highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Council removes the specified use by taking the same type of action imposing the commitment.

Assigned fund balance: This classification reflects the amounts constrained by the City’s “intent” to be used for specific purposes, but are neither restricted nor committed. Assigned fund balances include all remaining amounts (except negative balances) that are reported in the governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance: This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

In circumstances when a disbursement is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Currently, the City has one item that qualifies for reporting in this category, deferred amounts relating to the retirement plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item that qualifies for reporting in this category, deferred pension inflows relating to the retirement plan. These amounts are recognized as an inflow of resources in the period that the amounts become available.

Pensions

For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri Local Government Employees Retirement System (LAGERS) and additions to / deductions from LAGERS fiduciary net position have been determined on the same basis as they are reported by LAGERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Program Revenues

In the Statement of Activities, revenues that are derived directly from each activity or from parties outside the City's taxpayers are reported as program revenues. These include 1) charges for city court fines, licenses and permits, planning and zoning services, parks and recreation services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. All other governmental revenues are reported as general. All taxes are classified as general revenues, even if restricted for a specific purpose.

2. Cash & Cash Equivalents

Primary Government

State statutes require that the City's deposits be insured or collateralized in the name of the City by the trust department of a bank that does not hold the collateralized deposits. As of September 30, 2021, all bank balances on deposit are entirely insured or collateralized.

Warrensburg Convention and Visitors Bureau

State statutes require that the Bureau's deposits be insured or collateralized in the name of the Bureau by the trust department of a bank that does not hold the collateralized deposits. As of September 30, 2021, all bank balances on deposit are entirely insured or collateralized.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

3. Investments

Primary Government

The City categorizes its investments within the fair value hierarchy as discussed in Note 1. At September 30, 2021, the City had the following recurring investments:

<u>Investment Type</u>	<u>Maturity</u>	<u>Not Subject to Fair Value Hierarchy</u>	<u>Fair Value Level 1</u>	<u>Total</u>
Guaranteed Investment Contracts	1/1/2028	\$ 710,821	\$ -	\$ 710,821
Missouri Securities Investment Program				
(MOSIP) - Cash Management Funds	N/A	636,633	-	636,633
		<u>\$ 1,347,454</u>	<u>\$ -</u>	<u>\$ 1,347,454</u>

Guaranteed Investment Contracts

The City has Guaranteed Investment Contracts on deposit with United Missouri Bank. These investments are not required to be reported under fair value hierarchy. Fair market value approximates cost as the City has a pro-rata share of the fund. These deposits are held in trust accounts for the 2007 Sewer System Revenue Bonds and the reserve accounts. The City's funds are invested under the State Revolving Fund Program and are required to be collateralized in the amount of 100% of the value of the investment.

Missouri Securities Investment Program

City funds in the Missouri Securities Investment Program are invested in cash management funds in which the City has a pro-rata share. The funds are invested in accordance with Section 165.051 and Section 360 of the Missouri Revised Statutes and the cash management fund has a current rating of AAAM by Standard & Poor's. These investments are not required to be reported under fair value hierarchy.

Certificates of Deposit

Certificates of deposit with maturities in excess of three months at the date of purchase are classified as investments but are considered deposits for custodial risk determination. State statutes require that the City's deposits be collateralized in the name of the City by the trust department of a bank that does not hold the collateralized deposits. As of September 30, 2021, the City had no investments in certificates of deposit.

Interest Rate Risk

The City limits its exposure to interest rate risk. The City restricts its investments to those maturing in 5 years or less. This policy is limited to those investments made directly by the City and does not apply to investments of debt reserves made by trust account managers.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City's policy is to collateralize the demand deposits and repurchase agreements with securities held by the financial institution's agent and in the City's name.

At September 30, 2021, the City's deposits were insured by Federal depository insurance and uninsured deposits were fully collateralized by securities held in the City's name by their financial and government obligations and, accordingly, the City was not exposed to such credit risks.

Concentration of Credit Risk

The City's investment policy does not limit the amount it may invest in any one issuer. At September 30, 2021, the City's only investments were amounts held in trust invested in Guaranteed Investment Contracts on deposit with United Missouri Bank. The trust agreement requires that these amounts be collateralized in the amount of 100% of the value of the investment, and, accordingly, the City was not exposed to such credit risks.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

4. Accounts Receivable

Primary Government

Accounts receivable are presented net of allowance for doubtful accounts as follows:

	Accounts Receivable	Allowance	Net Accounts Receivable
General Fund			
Ad valorem taxes receivable	\$ 21,889	\$ 13,338	\$ 8,551
Sales and use tax receivable	845,326	-	845,326
Franchise tax receivable	265,171	-	265,171
Lodging tax receivable	42,351	-	42,351
	<u>\$ 1,174,737</u>	<u>\$ 13,338</u>	<u>\$ 1,161,399</u>
Court fines receivable	<u>\$ 47,537</u>	<u>\$ 44,959</u>	<u>\$ 2,578</u>

6. Long-Term Liabilities – Governmental Activities

Long-term liabilities of the City of Warrensburg consist of three Certificates of Participation, two capital leases, three General Obligation Bond issues, and compensated absences payable.

During the year ended September 30, 2017, the City entered into a lease purchase agreement to finance police RMS Software and Park fitness equipment in the amount of \$369,762. In the event of default, the Lessor may declare all payments immediately due and payable or retake possession of the leased property. The agreement requires quarterly payments of \$19,710, including interest at 2.47% as shown in following schedule:

Year Ending September 30,	Direct Borrowing		
	Principal	Interest	Total
2022	\$ 39,058	\$ 362	\$ 39,420

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

During the year ended September 30, 2019, the City entered into a lease purchase agreement to finance a Johnston Street Sweeper in the amount of \$234,580. In the event of default, the Lessor may declare all payments immediately due and payable or retake possession of the leased property. The agreement requires annual payments of \$51,735, including interest at 3.35% as shown in the following schedule:

<u>Year Ending September 30,</u>	<u>Direct Borrowing</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	\$ 46,865	\$ 4,869	\$ 51,734
2023	48,435	3,300	51,735
2024	50,058	1,677	51,735
	<u>\$ 145,358</u>	<u>\$ 9,846</u>	<u>\$ 155,204</u>

These lease agreements provide for cancellation of the leases on the annual renewal date if the City should fail to appropriate funds. However, the City does not foresee exercising its option to cancel. Therefore, these leases are accounted for as noncancellable capital leases in accordance with GASB Section C20 – “Leases.”

Series 2013 Certificates of Participation

The City issued \$8,485,000 of Series 2013 Refunding Certificates of Participation. The Certificates were issued to refund the Series 2007 Certificates of Participation which were originally used to fund various city building improvements and public safety equipment. The Certificates of Participation bear interest at 2.35% with principal and interest payments due March 1 and September 1 each year.

The total annual minimum lease payments required at September 30, 2021, are as follows:

<u>Year Ending September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	\$ 940,000	\$ 64,155	\$ 1,004,155

7. Long-Term Liabilities – Business-Type Activities

Long-term liabilities in the Sewer Fund consists of the 2007 and 2010 Sewer System Revenue Bonds, and compensated absences.

2007 Sewerage System Refunding and Improvement Revenue Bonds

The City entered into an agreement with the State Environmental Improvement and Energy Resources Authority, the City issued \$14.15 million in Sewerage System Refunding and Improvement Revenue Bonds, Series 2007. The bonds bear interest at 4.00% to 4.75%. In connection with the City's issuance of these revenue bonds, the City began participating in a revolving loan program established by the Missouri Department of Natural Resources (DNR). The State of Missouri manages and invests the bond proceeds on behalf of the City. As the City incurs approved capital expenditures, DNR reimburses the City for the expenditure from the bond proceeds account and deposits an additional 70% of the expenditure amount in a Bond Reserve Fund in the City's name. The interest paid on these sewer revenue bonds is offset by an interest subsidy from the State of Missouri's 70% bond reserves. Interest payments are due semi-annually on January 1 and July 1 of each year with annual principal payments due July 1 of each year. In the event of default, the DNR will have the right to take whatever action at law or in equity they deem necessary.

The annual debt service requirements to amortize the principal on the 2007 revenue bonds outstanding at September 30, 2021, are as follows:

Year Ending September 30,	Direct Placement			Total
	Principal	Interest	Administrative Fee	
2022	\$ 845,000	\$ 227,038	\$ 38,342	\$ 1,110,380
2023	865,000	186,425	32,309	1,083,734
2024	885,000	147,075	26,132	1,058,207
2025	905,000	106,775	19,814	1,031,589
2026	925,000	63,312	13,352	1,001,664
2027	945,000	20,672	6,747	972,419
	<u>\$ 5,370,000</u>	<u>\$ 751,297</u>	<u>\$ 136,696</u>	<u>\$ 6,257,993</u>

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

2010 Sewerage System Revenue Bonds

On September 30, 2015, the City had issued the maximum of \$8,548,500, in the State of Missouri Direct Loan Program sewerage system revenue bonds, Series 2010, for the purpose of extending and improving the City's sewerage system. The bonds bear interest at 1.48%. The principal and interest payments are due January 1 and July 1 of each year. Bonds may be called at any time for redemption under various provisions outlined in the bond ordinance. In the event of default, the State of Missouri will have the right to take whatever action at law or in equity they deem necessary.

The annual debt service requirements to amortize the principal on the 2010 revenue bonds outstanding at September 30, 2021, are as follows:

<u>Year Ending September 30,</u>	<u>Direct Placement</u>			<u>Total</u>
	<u>Principal</u>	<u>Interest</u>	<u>Administrative Fee</u>	
2022	\$ 446,000	\$ 62,833	\$ 21,228	\$ 530,061

9. Employee Pension Plan

General Information about the Pension Plan

Plan Description. The City's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The City participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided. LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police) and receive a reduced allowance.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

2021 Valuation

Benefit Multiplier	1.50% for life
Final Average Salary	5 Years
Member Contributions	0%

Benefit terms provide for annual post retirement adjustments to each member’s retirement allowance subsequent to the member’s retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered by Benefit Terms. At June 30, 2021, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>	<u>Fire</u>	<u>Total</u>
Inactive employees or beneficiaries currently receiving benefits	48	21	21	90
Inactive employees entitled to but not yet receiving benefits	33	30	26	89
Active employees	60	26	21	107
	141	77	68	286

Contributions. The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year. With an additional amount to finance an unfunded accrued liability. Employer contribution rates are 6.3% for General, 4.5% for Police, and 2.5% for Fire of annual covered payroll.

Net Pension Asset. The employer’s net pension asset was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of February 28, 2021.

Actuarial Assumptions. The total pension liability in the February 28, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75% wage inflation; 2.25% price inflation
Salary Increase	2.75% to 6.75% including wage inflation for General Division
Salary Increase	2.75% to 6.55% including wage inflation for Police Division
Salary Increase	2.75% to 7.15% including wage inflation for Fire Division
Investment Rate of Return	7.00%, net of investment expenses

The healthy retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubG-2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The pre-retirement mortality tables were 75% of the PubG-2010 Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and females of Police, Fire and Public Safety groups.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

Mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2021, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Alpha	15.00%	3.67%
Equity	35.00%	4.78%
Fixed Income	31.00%	1.41%
Real Assets	36.00%	3.29%
Strategic Assets	8.00%	5.25%
Cash/Leverage	-25.00%	-0.29%

Discount Rate. The discount rate used to measure the total pension liability is 7.00%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability (asset).

	\$ (2,126,573)	\$ (1,395,118)	\$ (1,171,420)	\$ (4,693,111)

10. Assessed Valuation, Tax Levy, & Legal Debt Margin

The assessed valuation of the tangible property and the tax levies per \$100 assessed valuation of that property were as follows:

	2020
Assessed Valuation	
Real estate	\$ 182,097,589
Personal property	42,492,384
Total	\$ 224,589,973
	2020
Tax Rate Per \$100 of Assessed Valuation	
General levy	\$.3608
Park levy	.1960
Debt service levy	.5900
Total	\$ 1.1468

The legal debt margin at September 30, 2021, was computed as follows:

	General Obligation Bonds		
	Ordinary (1)	Additional (2)	Total
Constitutional debt limit	\$ 22,458,997	\$ 22,458,997	\$ 44,917,994
General Obligation Bonds payable	(8,585,000)	-	(8,585,000)
Legal Debt Margin	\$ 13,873,997	\$ 22,458,997	\$ 36,332,994

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

(1) Under Article VI, Section 26(b) and (c), Missouri Constitution, the City, by a vote of its qualified electors voting therein, may incur an indebtedness for any purposes authorized in the charter of the City or by any general law of the State of Missouri. The borrowings authorized by this section shall not exceed ten percent of the value of the taxable tangible property in the City.

(2) Under Article VI, Section 26(d) and (e), Missouri Constitution, the City, by a vote of its qualified electors voting therein, may become indebted not exceeding in the aggregate an additional ten percent for the purpose of acquiring rights of way, constructing, extending, and improving streets and avenues, and/or sanitary or storm sewer systems; and purchasing or constructing waterworks, electric or other light plants, provided that the total general obligation indebtedness of the City does not exceed twenty percent of the value of the taxable tangible property in the City.

11. Unearned Revenue

Revenues from receivables not expected to be collected in time to pay current operating expenses are considered unearned until received in the governmental funds. These unearned revenues include special assessments to be collected over several years, and class fees. All of the unearned revenue at September 30, 2021, is accounted for as follows:

General Fund

Police department forfeit and seizure	<u>\$ 12,521</u>
---------------------------------------	------------------

Park Fund

Class fees	<u>\$ 108,565</u>
------------	-------------------

Neighborhood Improvement Fund

Special assessments	<u>\$ 383,555</u>
---------------------	-------------------

ARPA Fund

Grant Funding	<u>\$ 2,060,029</u>
---------------	---------------------

12. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has transferred its risk by obtaining coverage from a public self-insured insurance pool. In addition, it has effectively managed risk through various employee education and prevention programs. There has been no significant reduction in insurance coverage from the previous year.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

13. Interfund Transfers

Interfund transfers for the year ended September 30, 2021, consisted of the following:

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ 844,554	\$ 223,183
Park Fund	-	297,781
Capital Improvement Half Cent Fund	-	1,433,911
Vehicle Fund	-	2,035
Debt Service Fund	2,828,906	-
Capital Improvement Bond Fund	-	1,003,700
Neighborhood Improvement Fund	107,150	-
Sewer Fund	-	820,000
	<u>\$ 3,780,610</u>	<u>\$ 3,780,610</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the Enterprise Funds and General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

14. Internal Balances

Internal balances as of September 30, 2021, consisted of the following:

	<u>General Fund</u>	<u>Debt Service Fund</u>
Internal Balances	\$ 145,000	\$ (145,000)

During the course of its operations, the City has numerous transactions between funds to finance operations, provide services, construct assets, and service debt. To the extent that certain transactions between funds have not been paid or received as of September 30, 2021, balances of interfund amounts receivable or payable have been recorded within the fund financial statements.

15. Pledged Revenues

The City has pledged future water and sewer customer revenues to repay the Series 2007 and 2010 Sewer Revenue Bonds issued to improve and expand the sewer system. The bonds are payable solely from sewer customers net revenues and are payable through 2030. Net revenues are revenues of the system less expenses of the system with the exception of depreciation. The total principal and interest remaining to be paid on the bonds is \$10,792,763. Principal and interest paid for the current year and total customer net revenues were \$1,603,126 and \$3,273,813, respectively.

City of Warrensburg

Notes to the Financial Statements

September 30, 2021

16. Keystone Tax Increment Financing Redevelopment Agreement

The Keystone TIF is committed to reimburse the developer for public infrastructure improvements in the Keystone Redevelopment Area. There is no debt on the City's part. However, the City is obligated to repay \$2,355,801 of public infrastructure improvements to the extent that taxes are collected within this District. The City is only obligated if taxes are collected and only through the year 2038. As of September 30, 2021, the City has paid the developer \$523,076, leaving a remaining balance of \$1,832,725.

17. Conduit Debt

On June 8, 2017, the City authorized the issuance of \$110,110,000 aggregate maximum principal amount of Taxable Industrial Development Revenue Bonds, Series 2017. The issuance is Chapter 100 debt in order to provide economic financial assistance to a third-party private entity and the City has no obligation beyond the rents, revenues and receipts derived by the City from the Project; therefore, the issue does not constitute a debt of the City and, accordingly, are not included in the City's statement of net position. The bonds are issued as the Project proceeds. As of September 30, 2021, the full \$110,110,000 had been issued.

In May 2008, the City authorized the issuance of \$45,000,000 aggregate maximum principal amount of Taxable Industrial Development Revenue Bonds, Series 2008. The issuance is Chapter 100 debt in order to provide economic financial assistance to a third-party private entity and the City has no obligation beyond the rents, revenues and receipts derived by the City from the Project; therefore, the issue does not constitute a debt of the City and, accordingly, are not included in the City's statement of net position. The bonds are issued as the Project proceeds. As of September 30, 2021, \$43,869,147 had been issued.

18. Commitments

At September 30, 2021, the City was committed to SMICO Contracting Group LLC in the amount of \$632,917 for services associated with the east and west wastewater treatment plant for materials and labor to install a Centrifugal Turbo Blowers System.

Notes to the Schedule of Contributions

Year Ended September 30, 2021

Valuation Date: February 28, 2021

Notes: The roll-forward of total pension liability from February 28, 2021, to June 30, 2021, reflects expected service cost and interest reduced by actual benefit payments.

Methods and Assumptions Used to Determine Contribution Rates

Actuarial Cost Method: Entry Age Normal and Modified Terminal Funding

Amortization Method: Level Percentage of Payroll, Closed

Remaining Amortization Period: 15 years

Asset Valuation Method: 5-Year smoothed market; 20% corridor

Inflation: 2.75% wage inflation; 2.25% price inflation

Salary Increases: 2.75% to 6.75% including wage inflation for General Division

2.75% to 6.55% including wage inflation for Police Division

2.75% to 7.15% including wage inflation for Fire Division

Investment Rate of Return: 7.00%, net of investment expenses

Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition

Mortality: The healthy retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubG-2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The pre-retirement mortality tables were 75% of the PubG-2010 Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and females of Police, Fire and Public Safety groups.

Mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scale to the above described tables.

Other Information: None

Notes to the Budgetary Comparison Schedules

Year Ended September 30, 2021

Budgets and Budgetary Accounting

The City uses the following procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to October, Administration submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditure plans for all fund types and the proposed means of financing them.
2. One public hearing is conducted by the City Council in late August or early September to obtain taxpayers' comments on the proposed budget and tax levy.
3. Prior to October 1, ordinances are passed by Council, which provide for legally adopted budgets for all funds of the City.
4. The City operates on a program performance budget system, with legally adopted budgets prepared by fund, program and department. The level of budgetary control is at the department level. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of City Council.
5. Formal budgetary integration is employed as a management control device for all funds of the City.
6. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with GAAP. Budgeted amounts may be amended during the year by City Council on approved budget adjustment forms.

Other Reporting Requirements

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable Mayor and City Council
City of Warrensburg
Warrensburg, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Primary Government which includes the governmental activities, business-type activities, and each major fund of the City of Warrensburg, Missouri, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Warrensburg, Missouri's basic financial statements, and have issued our report thereon, dated February 21, 2022.

We have also audited the discretely presented component unit, Warrensburg Convention and Visitors Bureau, and issued our report dated February 21, 2022. This report does not include our testing of internal control over financial reporting or compliance and other matters that are reported for the discretely presented component unit.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Warrensburg, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Warrensburg, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Warrensburg, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Warrensburg, Missouri's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Warrensburg, Missouri's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
